We proudly welcome you to the 2nd International Conference on Breast Pathology and Cancer Diagnosis which is scheduled on September 17 and 18 at Vienna, Austria. We take the moment to invite all the participants: speakers, delegates, doctors, professors, students, sponsors and exhibitors across the globe to attend the annual conference.

Breast Pathology and Cancer Diagnosis Conference is themed for "Unveiling the potential for faster Breast Cancer Diagnosis"

Breast Pathology 2020 covers the wide range of modern research taking place worldwide which helps for faster diagnosis and treatment and allows the participants to present in the congress which will be most benefited to Young Researchers, Students, and Delegates, and Business delegates.

Breast Pathology 2020 will boost modern research methodologies and various methods for better healthcare management. This conference will provide the best platform for researchers and business leaders to acknowledge recent breakthroughs and invest in the field of Breast Cancer and Diagnosis for a better future.

Benefits of Attending this Conference:

- Accepted Abstracts will be published in the respective journals and will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref (Free abstract publishing).
- Speaker and Abstract pages created with Google on your name would get worldwide acknowledgment of your profile and research.
- Career Guidance Workshops to Graduates, Doctorates and Post-Doctoral Fellows.
- Certificate of Accreditation from the Organizing Committee for presentation/ participation.
- Best Poster and Young Researcher Award.

Symposium by Experts Team. The best platform to develop new partnerships & collaborations. Network development with both Academia and Business.

Conference invited academicians, experts, Presidents, Post-Doctoral Candidates, research scholars and students around the world to Oslo City in Norway. It was an astounding 02 day occasion with 02 Keynote Speaker and prestigious speakers tending to the sessions with key issues and research highlighting; Breast Cancer, Breast Anatomy, Benign Breast conditions, Ductal carcinoma In Situ, Lobular carcinoma In Situ, Atypical hyperplasia, Breast cancer and the Immune system, Breast Implants, Surgery for Breast cancer and others
